GO COLOR

Game Rules

Players: Two to Four

The Pack: The card deck contains 32 cards with 8 different images, one game rule card and one bonus card, total 34 cards in a pack.

Object Of The Game: The goal is to make the most “house” of four cards. A house has any four of a kind of character cards, fours Happy, four Joy, and so on.

The Deal: Chose any one player to deal. The dealer shuffles the cards and deals five cards to each player face down. The dealer then places the rest of the deck face down in the center of the play area. This is now the “House” pile.

The Play: The player to the dealers left starts first. They will look at their cards and ask any other player, by their name, for all their cards that match thier choice of the character card. For example, the player asks, “Give me your Happy’s.” The player must have at least one of these cards in their hand.
